

## Geometry. IMO

Данный листок содержит все задачи по геометрии, которые предлагались на Международной математической олимпиаде (IMO) начиная с 2005 года.

Международная математическая олимпиада проходит в два дня. Задачи 1, 2, 3 даются в первый день, задачи 4, 5, 6 — во второй. В варианте каждого дня задачи обычно расположены по возрастанию сложности; таким образом, задачи 1 и 4 являются «простыми», задачи 2 и 5 — «средней сложности», задачи 3 и 6 — самые трудные.

Принцип нумерации задач листка: задача **15.3** предлагалась в 2015 году под номером 3.
